REMARKS CONCERNING MACHINING AND REPAIR WORK

- We guarantee that the repair will be effected according to the actual state of technology.
- We guarantee to carry out all repairs scrupulously in accordance with existing instructions. If a workpiece becomes unusable due to a manufacturing fault, we only bear the machining costs occurred till this state of production. Consequential damages are excluded from our responsibility (i.e. replacement of the unusable piece).
- If a workpiece fails during machining due to faults out of our responsibility, all costs occurred till this state are to be paid by the buyer.
- In case of machining with turnings, the costs are calculated on the basis that these turnings remain our property without any further compensation from our side.
- We cannot be held responsible for any defects resulting from insufficient technical information.
